## ABOUT ME

I'm a software engineer with expertise in team leadership, machine learning, and system design. I'm deeply passionate about my work, excel at problem-solving, and stay up to date with evolving tech trends.

## SKILLS HIGHLIGHTS

1. Strong understanding of Data Structures and Algorithms.
2. System design, project management, and leadership capabilities.
3. Knowledge of Software Architectures and Design Patterns. (n-Tier, Microservice, Clean, MVT, MVC)
4. Version control using Git.
5. Experienced in multiple frameworks on front-end web applications and backend systems.
6. Mobile Application Development with React Native.
7. Database management skills (SQL & NoSQL) with Prisma, SQLAlchemy, and Mongoose.
8. Cloud platform experience with AWS and GCP.
9. Proficient in Linux environments.
10. CI/CD using GitHub Actions.
11. Familiarity with Docker.

# MUHIB AL HASAN

**SOFTWARE ENGINEER**
**Dhaka, Bangladesh.**

## PROFESSIONAL EXPERIENCES

### UJET

**Software Engineer II** · Aug 2025 - Jan 2026
**Software Engineer** · May 2024 - Aug 2025
San Francisco, CA, USA · Remote · Full-time

- Collaborated with engineers from 4+ countries, following industry-standard SDLC practices under guidance from Google's engineering team.
- Worked on developing and maintaining a robust Customer Center platform using Ruby on Rails and Node.js, with a mix of monolithic and microservice architectures, deployed on GCP using Kubernetes.
- Followed GitLab Flow and Trunk-based branching strategy, implemented CI pipelines using GitHub Actions.
- Applied SOLID principles and design patterns, wrote Technical Design Documents, and contributed to rigorous code reviews to improve code quality.

### ITD Security

**Full-stack Developer** · Aug 2023 - Jan 2024
Dubai, United Arab Emirates · On-site · Full-time

- Contributed to the development of the Donzon ad-posting platform and managed the websites and servers of its sister companies.

### National River Conservation Commission

**Lead Developer** · Apr 2023 - Dec 2023
Dhaka, Bangladesh · Hybrid · Contractual

- Spearheaded a 5-member team to successfully deliver a software system for the Bangladesh Government.
- Demonstrated expertise in version control by meticulously reviewing and maintaining the codebase using Git.
- Employed project management tools such as ClickUp and Agile methodology to effectively oversee and organize project tasks.

### United International University

**Undergraduate Teaching Assistant** · Aug 2022 - Jan 2023
Dhaka, Bangladesh · On-site · Seasonal

- Assisted faculty with undergraduate coursework and lab sessions.
- Graded assignments and maintained academic records.

### CleInsight

**Software Developer Intern** · Nov 2021 - Feb 2022
Singapore · Remote · Internship

- Worked on developing web applications with Vue.js, Angular, and AWS, following the SCRUM software development process.

## EDUCATION

### United International University
**Bachelor of Science in Computer Science and Engineering**
Jan 2019 - Jan 2023
Dhaka, Bangladesh

- CGPA: 3.85 (out of 4.00)
- Major: Data Science.
- Thesis: Improvement of Scene Understanding using Scene Graphs.

### Feni Computer Institute
**Diploma-In-Engineering**
Aug 2014 - Jul 2018
Feni, Bangladesh.

- Associate diploma in Data Telecommunications and Networking Technology.

## PUBLICATIONS

### The Impact of Data Locality on the Performanceof Cluster-Based Under-Sampling
**Conference: MIET-2022**
September 2022.
Bangladesh.

### A Novel Method for Imbalanced Data Classification Based on Label Reassignment
**Conference: TENCON-2022**
November 2022
Hong Kong.

### Attention-Based Scene Graph Generation: A Review
**Conference: SKIMA-2022**
December 2022.
Cambodia.

## TECHNICAL SKILLS

- Ruby
- TypeScript
- Python
- JavaScript
- Django
- Ruby on Rails
- Express.js
- React.js
- React Native
- Next.js
- TailwindCSS
- MySQL
- MongoDB
