

MUHIB AL HASAN

📍 Dhaka, Bangladesh ✉ muhibalhasan1@gmail.com 🌐 in/muhibalhasan 🖥 muhib.site ☎ +8801736480320

Software Engineer with 3+ years of experience designing and delivering scalable, production-grade systems across SaaS, customer service, and government platforms. Strong expertise in backend engineering, distributed systems, cloud infrastructure, multi-tenant architectures, and observability. Combines software engineering experience with a strong academic background in Data Science and Machine Learning.

TECHNICAL SKILLS

Languages: Ruby, Python, JavaScript

Frameworks: Ruby on Rails, FastAPI, React Native, Express.js, Next.js

Databases: MySQL, PostgreSQL, MongoDB

DevOps: Docker, Kubernetes, GitHub Actions, Ansible

ML/Ops: LangChain & LangGraph, MLFlow

PROFESSIONAL EXPERIENCE

Orexza

Dubai, UAE | Remote

Software Engineer

Feb 2026 – Present

- Architected a secure multi-tenant Shopify SaaS platform with PostgreSQL schema isolation, tenant lifecycle management, and scalable merchant onboarding.
- Designed and implemented a real-time analytics platform featuring asynchronous event processing, reporting APIs, Redis caching, and background aggregation pipelines.
- Built a production-grade authentication and authorization system with HMAC request signing, replay protection, tenant validation, and secure service-to-service communication.
- Developed comprehensive observability infrastructure using OpenTelemetry, Grafana Alloy, Prometheus, Loki, Tempo, and Grafana Cloud for logs, metrics, traces, and alerting.

UJET.CX

San Francisco, USA | Remote | Full-time

Software Engineer II

Aug 2025 – Jan 2026

- Played a key role in resolving critical production issues that pulled the platform out of a Google Code Red state, helping retain two major enterprise clients and safeguarding a multi-million dollar deal.
- Diagnosed and mitigated high-impact production issues across monolithic and microservices architectures on GKE, collaborating with engineering teams in the US, Korea, and Philippines.
- Streamlined development workflows using GitLab Flow and trunk-based development, and built CI pipelines with GitHub Actions.
- Improved system reliability through targeted bug fixes, rigorous code reviews, and technical design documentation aligned with Google's SDLC practices.

Software Engineer

May 2024 – Aug 2025

- Designed and implemented two production features in a 13+ year-old Ruby on Rails monolith supporting a multi-tenant, event-driven architecture; integrated with multiple microservices and delivered with zero Sev-1 incidents, no customer-visible downtime, and stable performance under hundreds of thousands of concurrent users.

National River Conservation Commission

Dhaka, BD | Contractual

Software Engineering Lead

Apr 2023 – Aug 2023

- Led a 5-member team to design and deliver a government platform enabling citizens to report river-related issues directly to authorities.
- Architected and developed the backend system powering a multi-application ecosystem, including a public reporting app, an investigator app, and an administrative dashboard using React Native and Next.js.
- Deployed and managed the system on AWS (EC2, MySQL), ensuring reliability and scalability for real-world government operations.

- Acted as the primary technical liaison for stakeholders, conducting client meetings, gathering requirements, and driving end-to-end project delivery.

EDUCATION

BRAC University

Masters of Science in Computer Science and Engineering

Oct 2025 - Present

- Major: Data Science.

United International University

Bachelor of Science in Computer Science and Engineering

Jan 2019 - Jan 2023

- CGPA: 3.85 (out of 4.00)
- Major: Data Science.
- Thesis: Improvement of Scene Understanding using Scene Graphs.
- Courses: Software Engineering, Software Architecture, Artificial Intelligence, Machine Learning, Digital Image Processing.

Feni Computer Institute

Diploma in Engineering

Aug 2014 - Jul 2018

- Associate diploma in Data Telecommunications and Networking Technology.

PUBLICATIONS

September 2022

Conference: MIET-2022, Bangladesh.

ADDITIONAL EXPERIENCES

ITD Security

Dubai, UAE | On-site | Full-time

Full-stack Developer

Aug 2023 – Jan 2024

- Developed features for the Donzon ad-posting platform using PHP/Laravel.
- Managed multiple websites and email servers of the sister companies in GoDaddy.

CleInsight

Singapore | Remote | Internship

Software Developer Intern

Nov 2021 – Feb 2022

- Built web applications using Vue.js and Laravel on AWS.
- Collaborated with remote teams in a Scrum-driven development process.

United International University

Dhaka, BD | On-site | Seasonal

Undergraduate Teaching Assistant

Aug 2022 - Jan 2023

- Assisted with undergraduate coursework and lab sessions, graded assignments, and maintained academic records.

Upwork

Freelance Programmer

2020-2021

- Wrote web scraping and automation scripts using Python-BeautifulSoup and Selenium.
- Created web applications using React and Python-Flask.
